

Specifications

Designed for the primary regulation of high cylinder pressure, high purity (up to grade 5.0) gases to a constant and stable outlet pressure, the Lab-Master range of plated brass multi-stage regulators are ideally suited for high purity cylinder gas use throughout laboratory, research and development, analytical facilities and many industries.

Product Features

- Pipe away safety relief valve for safe venting of exhaust gases
- Reliable encapsulated valve design
- Nickel plated cylinder contents and outlet pressure gauges (vacuum facility on outlet pressure gauge)
- Adjustable outlet pressure setting
- Designed and manufactured in Norfolk, UK.

Technical Data
